

1 A Could be. That sounds -- I don't remember
2 specifically, but that is probably true.

3 A larger proportion of the longer-term
4 employees had disease than did the shorter term.

5 Q And is it not correct that in the Dreessen
6 study, we already talked about the four references to
7 cancer, but in the Dreessen study there was a long
8 bibliography of articles dealing with asbestos and
9 disease?

10 A Oh, yes.

11 Q And one of those studies was the Fulton
12 study, you are familiar with that?

13 A Yes.

14 Q That was a study done in Pennsylvania in
15 1935?

16 A Yes.

17 Q And in that study, there were a number of
18 individuals who were found to develop the disease
19 asbestosis below the five million particles per cubic
20 foot; isn't that correct?

21 A Yes. There were a few cases that Fulton
