Dear Sir,

I was interested to read in Chemical Week about your organisation, and I am writing now to find out in more detail the scope of your activities.

For your information we are involved in the flooring industry, and we manufacture both vinyl asbestos floor tiles, and also cushion vinyl sheeting. As you will appreciate we are very much a part of the vinyl industry and are anxious to keep abreast with the latest developments on all fronts.

Therefore I would greatly appreciate hearing of the services you offer.

Yours faithfully

J. EXELBY.
