

UNCONSOLIDATED ZINC CORPORATION LIMITED
87 DOVER STREET
LONDON, W.1.

23rd May, 1957.

Dr. R.A. Kehoe,
Kettering Laboratory,
University of Cincinnati,
Eden Avenue,
Cincinnati, Ohio.

Dear Dr. Kehoe,

I am writing to thank you for your kindness in making available your film on lead poisoning in natives at Panama which I saw in New York on the day before we left for London. The film was most interesting and instructive and provided a very much better picture of the type of industrial poisoning which was met with at the Ethel Head workers, and which I discussed with Dr. Bock in Baton Rouge.

I hope that arrangements will be made for me to attend the Industrial Conference at Helsinki. I have forgotten whether you intend to be present at this conference but I hope that this will be so.

With kindest regards and once again many thanks for your kindness.

Yours sincerely,

W. E. George
