Dear Max:

Will you please proceed with the preparation of the necessary applications to register the name Leland as indicated in your letter to me of December 5, 1961.

We have discussed the registration of this name with the people concerned and they are all now of the opinion that if at all possible the name should be protected. If you have any questions as to the products on which this name will be used, please let me hear from you.

Very truly yours,

Trade Mark Registration

As mentioned to you at lunch the other day, I would like to go ahead and register the Leland name for trade mark purposes in view of the insignificant cost factor you mentioned in your letter.

Bear in mind, that there are other names very closely identified to our's in at least two cities I can think of, but if it is a matter of corporate identify in the state of Illinois which alone is the factor in trade mark registration, I would urge that we do so without further delay.

TRADE MARK REGISTRATION

Our Patent Attorney in Washington called our attention to the fact that the name Leland has never been registered as a trade mark. If you believe there is any need for this registration to protect the name on any of the products sold through Leland will you please let me know.

The registration cost is insignificant.

Attention of Mr. Chester C. Levine

Subject: Leland Corporation

Dear Chester:

In the interim report which I received there is mentioned "Leland Corporation" as a manufacturer and seller, I presume, of air brake components and heavy duty axle parts.

Apparently this company which was acquired by Maremont has no trade marks and I have had the matter searched very thoroughly so as to be sure we have not overlooked anything.

If LELAND has been used for a good many years, and as a trade mark, it would probably be wise to register it and I will bring this matter to your attention again after you have had a chance to consider this letter.

Yours very truly,

CUSHMAN, DARBY & CUSHMAN
