Painted Walls THE IDEAL SETTING

You've noticed this, of course:
Certain modest little homes have
a charm that pretentious places
lack. What's the secret? Often,
it's merely artistic use of COLOR!

With FULLERGLO, you can
make your rooms both colorful
and restful. Painted walls and
woodwork form an ideal setting
for furnishings and draperies.

The soft tones and satiny sur-
face of this enamel-like finish
will delight you. It's practical too;
withstands repeated washing.

FULLERGLO is equally pop-
ular for furniture, and so easy to
apply that you can do the work
yourself. For large jobs, however,
it is better to employ a painter.

FULLERGLO comes in twelve
delicate colors and white. Your
Fuller Dealer, listed below, will
gladly give you a color card and
help you with your painting.
