should be urgently instituted.

Q Thank you, Doctor. I am glad you read the sentence preceding the one I wanted you to read. That talks about X-ray abnormalities.

Did this study have anything to do with mesothelioma?

A As a matter of fact, I don't remember a single patient having mesothelioma.

Q Okay. Now, the jury has heard a fair amount about epidemiology and about the kinds of epidemiologic studies that are done, and they have heard about case control studies and cohort studies.

Do you know if this was a case control study or a cohort study?

A To my memory, this was a cohort study, in that people studied were specifically vehicular maintenance worker on a basically retrospective basis.

Q Now, the sentence I asked you to read indicates this preliminary study was limited in scope, and then it goes on to say that the results cannot
