Subject: 9/18/00 Water Samples

Empore filtration/extraction followed by both FTIR and Mass Spec testing were done on the three
water samples brought in yesterday. Results follow.

- 11am River - This showed 4G7 and traces of C8.
- 11am Outfall No. 5 (#1) showed traces of C8
- 11am Outfall No. 5 (#2) showed only water
