RE: Asbestos Removal

Dear Mr. Spiekerman,

Coastal Refining & Marketing, Inc (CRMI) has recently contracted with Basic Industries of Houston to remove asbestos insulation in parts of the East Plant of the Refinery. There will be numerous small jobs totalling 157 linear feet and one small job equalling 30 square feet. Basic Industries will be using the wet method of removal.

CRMI has purchased a roll-off box dedicated for storage of asbestos waste. All asbestos insulation is bagged and placed in this box prior to disposal. When the box is full, it is transported by Condor Mgt. to BFI in Sinton.

A copy of the TACB notification form is being faxed to you today and the original is included with this letter. Also included is a list of the individual jobs.

If you should have any questions concerning this information, please feel free to contact me at 512-887-4247.

Sincerely,
COASTAL REFINING & MARKETING, INC.
