Dear Mr. Flynn:

Thanks very much for your letter of May 7 which clarifies the matter referred to in my letter of May 6 to Mr. O. B. Lewis. It so happens that I had received your letter of December 7 with its report of the interview with Messrs Booth and Buck. Unfortunately this letter had been filed some time previously, and I did not connect it up with the weekly letter of Mr. Nixon, dated April 8. Consequently I was of the opinion, mistakenly, that some information which should have been forwarded to me, had not come. I think you will recognize now readily this oversight could occur in view of the somewhat slender link of memory, which alone could hook it up with the former report. Nevertheless I hasten to make my apologies for an undeserved criticism. Please accept my thanks for the detailed information which enabled me to bring this case to a close, insofar as our records are concerned.

Cordially yours,

Robert A. Kehoe, M. D.
