Mr. P. E. Toth, Supervisor
Industrial Hygiene Section
Central Medical Services Bldg.
Rouge

SUBJECT: Environmental Exposure to Airborne Asbestos Fiber

This is to confirm our telephonic reports on September 21 and November 9, 1972, to your personnel regarding your communication on subject matter dated September 18, 1972.

The Metal Stamping Division exposure to asbestos is limited to some welding spark-curtains and brake shoe linings, i.e., Industrial Vehicle, Crane and Press Fly-wheel brakes, which we have been advised does not fall in the operational areas indicated in your communication.

John A. Paugh Jr.
