MANUFACTURING CHEMISTS ASSOCIATION

1825 CONNECTICUT AVENUE, N.W. WASHINGTON, D.C. 20009 (202) 483-6126

July 15, 1977

TO: Vinyl Chloride Research Coordinators

SUBJECT: Ballot on University of Louisville Initial Progress Report, Second Progress Report, and Research Proposal

Gentlemen:

The three documents from the University of Louisville with which the attached ballot is concerned were mailed to you as follows:

<u>Document</u>	<u>Mailing Date</u>
Initial Progress Report	May 23, 1977
Second Progress Report	June 14, 1977
Research Proposal	May 24, 1977

In accord with established procedure, no distribution can be made of any of these documents until your approval is secured. Therefore, we shall appreciate your completing one copy of the enclosed ballot and returning it to the Project Manager at the earliest possible time, certainly no later than July 29, 1977.

In the May 29, 1977, letter you were requested to comment on the University of Louisville Research Proposal no later than June 30, 1977. Your ballot on the Research Proposal is especially critical since the current research agreement (covering 1976-1977) expires August 31, 1977. As may be readily appreciated, the balloting of the entire Panel remains to be completed after you have submitted your ballots.

Sincerely,

JTS:ec
Enclosures

J. T. Seawell

Ballot on Documents from University of Louisville

Subject I: University of Louisville, Initial Progress Report,
Dated April 11, 1977

"Initial Progress Report for the Manufacturing
Chemists Association's Agreement with the University
of Louisville"

I approve of the Subject I report and recommend that
it be distributed to the members of the Panel.

I do not approve of the Subject I report for the
reason(s) given in the attached letter.

Subject II: University of Louisville, Second Progress Report,
Dated June 6, 1977

"Second Progress Report for the Manufacturing
Chemists Association's Agreement with the University
of Louisville"

I approve of the Subject II report and recommend that
it be distributed to the members of the Panel.

I do not approve of the Subject II report for the
reason(s) given in the attached letter.

CMA 002449

Subject III: University of Louisville, Research Proposal, Second (1977-78) and Third (1978-79) Years

"Research Techniques and Methods for Detection and Prevention of Carcinogenesis in Industrial Workers"

I approve of the research proposal as it has been presented by Dr. Tamburro and recommend that it be submitted to the Technical Panel.

I do not approve of the research proposal as presented and recommend changes and/or modifications given in the attached letter.
