Hi folks – It looks as though next Wednesday, 10/11, at 11:00 will work for most of us. I can catch up with others as needed. I'll send a meeting notice with a dial-in number in a few minutes.

Thanks!

Jon

Dear EBA Panelists:

Thanks so much for agreeing to speak at the Energy Bar Assoc. (EBA) conference on October 17 (A New Sheriff in Town). EBA is really very grateful for your time. We have a great panel, and it's perfectly timed.

We'd like to set up a quick organizational call within the next several days. Though you should have all of the logistical information you need from EBA Executive Director Lisa Levine, it would be good to have a chance to discuss the format for the panel and exchange a few thoughts on the scope of the discussion. I'd like to impose on each of you to spend perhaps a minute or two on the call outlining your thoughts. One late-breaking topic I would invite you to address is DOE's baseload generation NOPR (FERC Docket No. RM18-1). Though it is not an environmental regulation, strictly

speaking, it does impact the same set or resources of concern to the EBA membership, and it would have an environmental impact.

At the link below, you'll find a doodle poll asking for your availability for a call over the next few days. I hope we can limit the call to ½ hour.

Thanks again!
