

April 7, 1938

Mr. Roy Smith, President
Washington State Horticultural Association
Chelan, Washington

Dear Sir:-

Some days ago I received a letter from Mr. P. A. Combelic asking for my opinion on certain phases of the spray residue problem which his committee is considering. Unfortunately Mr. Combelic did not give his address in the letter which he sent me, and in order that my reply may not go astray, I am taking the liberty of sending it in your care with the request that you see that it reaches him.

Please accept my thanks for
your courtesy.

Very truly yours,

RAK:is

Robert A. Kehoe, E.D.
