RE: ASBESTOS REMOVAL

Tom, would you please obtain a quote for the removal of the asbestos pipe insulation in the crawl space above the ceiling in Bldg. 81, the Plant Cafeteria. You and I have looked at this and I think we both agree that it needs cleaning up.

I suggest we get quotes and then try to schedule the job when the cafeteria is closed for vacation, since the place will be "quarantined" while the work is going on.

Please let me know what you find out.

Brooks
