Lou,
If you are available, we would very much appreciate your participation the American Public Power Association's [CEO & Utility Managers Roundtable](#), March 16 – 18, 2025 in Amelia Island, Florida.

The CEO & Utility Managers Roundtable is where public power's top-tier leaders connect with dynamic experts in technology, energy, and policy. It attracts approximately 100 CEOs from public power utilities across the country and provides a deep dive into high level issues impacting the industry.

If you are interested, we would like to invite you to address our members on Tuesday, March 18th at 8 am.

The current agenda and registration list are attached.

Thank for your consideration and please let me know if you have any questions.

Ursula Schryver
Senior Vice President, Education, Training & Events

American Public Power Association
2451 Crystal Dr., Suite 1000, Arlington, VA 22202

Hi Ursula,

As mentioned, I am connecting you here to Lou Hrkman, the senior political appointee in EERE. Lou is interested in attending the CEO summit in late March to represent us. I'm also adding Heather and Patrice, who can help coordinate logistics.

Thanks!
Alejandro

Subject: RE: [External] VIRTUAL: March APPA Event

Thank you all for taking the time to talk today.

As discussed, attached is the CEO & Utility Managers Roundtable registration list noting the number of customers for each organization. Joint Action Agencies have 0 customers because they don't service end use customers.

I've also attached the agenda for the CEO Roundtable and the current draft of breakout sessions for the National Conference.

Let me know if there are any National Conference sessions you would like to participate in, or if there is anywhere else you'd like to be involved. If you are interested in booth space at the National Conference expo we can offer that, so just let me know.

Let me know if there is anything else I can do to help.

Hi Ursula, good to see you the other day and thanks for this.

We talked internally and, if it works for you all, we would suggest looking at the March meeting for me to attend and to convene the smaller C-Suite conversation we discussed. In the meantime, Paul Spitsen, who helps lead the load management and broader power systems programs I was mentioning, could attend the January event in Scottsdale. If it makes sense to use that to advertise a bit our work and the March session, that could work very well.

We would also most likely plan to send a delegation to New Orleans but we can talk through how best to utilize that based on the March event.

Let us know if that makes sense and happy to discuss more.

CEO & Utility Managers Roundtable

Sunday, March 16

8 am - 3 pm

CEO & Utility Manager Roundtable Golf Tournament

Join us for a Scramble Golf Tournament at the Oak Marsh Golf Course, which is onsite at the Omni Amelia Island Resort. More than a chance to enjoy the weather and the company of public power leaders, the tournament will also feature raffle prizes, a putting contest, and other fun activities.

How will it work?

Registration and breakfast will begin at 8 am. The tournament will begin with a shotgun start at 9 am. Additional information will be available in early 2025.

Entry Fee

\$100 per player. Includes: breakfast, lunch, green fees, and cart rental.

Format

Four-person scramble. Individual players not entered as a team will be paired with others to complete a foursome.

Not interested in golf? Join us for a tour of Amelia Island.

10 am - Noon

Ecology of Amelia Nature Tour

Limited to 10 registrants

This hand-crafted ecology tour is a Naturalist Guided Tour featuring approximately 4 miles of walking or riding. During the walk/ride, you will dive into the three different ecosystems found on the island. You will get to immerse yourself in the maritime forest along the coast, learning about what creatures dwell here and why it looks the way it does. Adventuring to the beach, you will get to see the incredible creations called dunes and learn why they are so important to the vitality of the island and its inhabitants. Walking/Riding from one side of the island to the other, you will emerge into the marsh ecosystem and learn about its complexity and how it functions as a safety net for the island. Be sure to bring your comfiest walking shoes and adventure into the beautiful nature that creates Amelia Island.

Binoculars and Water Provided

**Guest can choose from Walking, Biking, or Golf Cart*

Fee

\$50 per registrant

5 – 6 pm

Welcome Reception

Enjoy hors d'oeuvres and drinks while you reconnect with old friends, meet new people, and network with public power leaders from across the nation. Guests are welcome.

Monday, March 17

7:30 – 8:30 am

Networking Breakfast

8:30 am – 8:45 am

Welcome

Scott Corwin, *President & CEO, American Public Power Association*

8:45 - 10:15 am

Effective Leadership for Critical Times

Examine the challenges and opportunities organizations face in the ever-evolving technology and security landscape, and how leaders can either create or mitigate risk from the longest-serving leader of the U.S. Cyber Command and the National Security Agency. Draw from General Paul Nakasone's more than three decades among an elite class of leaders whose strategic expertise at the nexus of cybersecurity, technology, and geopolitics to better understand the foundation upholding our nation's security in the modern age. Gain battle-tested lessons on transformational leadership stemming from General Nakasone's pivotal moments in modern warfare and digital defense and how leaders can excel even when at the epicenter of conflict.

General Paul M. Nakasone, *Former Commander, U.S. Cyber Command, Former Director of the National Security Agency, and Four-Star Army General (Ret.)*

10:15 – 10:30 am

Break

10:30 am – Noon

Public Power Leadership Strategies

Hear from a panel of managers and CEOs from utilities of differing sizes as they share their experience in helping their teams achieve results, building strong work cultures, and recruiting top-notch employees. After the panel, discuss your challenges and strategies and make connections in an engaging small group roundtable.

Emeka Anyanwu, *Chief Executive Officer, Lincoln Electric System, Nebraska*; **Vickie Cavey**, *Managing Director/CEO, JEA, Jacksonville, Florida*; **Janisse Quiñones**, *Chief Executive Officer and Chief Engineer, Los Angeles Department of Water & Power*; and **Kevin Westhuis**, *Utility Director, River Falls Municipal Utilities, Wisconsin*

Noon – 1:15 pm

Networking Lunch Hosted by APPA

1:15 – 3 pm

Energy Management in the Evolving World of AI and Data Centers

Navigating and managing the significant demand growth associated with data centers and AI applications poses an unprecedented challenge for utilities seeking to maintain reliability and a stable

rate environment. Given the magnitude of these changes, it becomes increasingly critical to understand the economic logic and critical factors driving the data industry. Delve into the dynamics underlying the energy-hungry AI large language models, future possible outcomes, and the risks and opportunities posed by these new loads. Learn how AI applications might be applied to create more efficient, reliable and resilient future grids and hear how your peers are addressing these issues.

Peter Kelly-Detwiler, former SVP of Demand Response, Constellation Energy, and author of *“The Energy Switch: How Companies and Customers Are Transforming the Electrical Grid and the Future of Power”*; **Jim Fuller**, President & CEO, MEAG Power; and **Roger Kline**, General Manager/CEO, Northern Wasco County People’s Utility District, Oregon

3 – 3:15 pm
Break

3:15 – 4:30- pm
Resource Adequacy & Reliability

Get the latest outlook on long-term resource adequacy for the United States, including how NERC, the markets, and utilities are working to address concerns around increasing demand coupled with a shifting resource mix. Explore various regional approaches to maintaining resource adequacy and reliability and what opportunities industry leaders see on the horizon. Delve deeper into the challenges and strategies facing your organizations in the ensuing focused roundtable discussions.

Rick Dunn, General Manager, Benton PUD, Washington; **John Horner**, President & CEO, Easton Utilities Commission, Maryland; and **Jim Robb**, President & CEO, North American Electric Reliability Corporation

5- 6 pm
Reception

Tuesday, March 18
7:30 – 8:30 am
Networking Breakfast

8:30 – 10:30 am
The Potential in New Technologies

From how electricity is generated to how people are using it, a host of technologies are either on the horizon or at your fingertips. Explore how entities at the forefront of technological innovation in the utility sector are leveraging the latest advancements and what they’ve learned about implementing technology. Review how policies and incentives can help or hinder adoption and practical applications of the latest technology trends within utilities. After the panel, break into small groups to discuss how your organization approaches implementing new technologies and how you can foster an environment for collaborative problem-solving.

Arshad Mansoor, Ph.D., President and CEO, Electric Power Research Institute (EPRI); and **Dawn Roth Lindell**, General Manager & CEO, Seattle City Light, Washington

Subject: [EXTERNAL] Meeting Request with Secretary Wright

Dear Secretary Wright:

Congratulations on your confirmation as Secretary of Energy. I am reaching out on behalf of the American Public Power Association (APPA), to request a meeting with you and your team about our work with DOE as the national trade association representing public power utilities. We have worked closely with DOE for many years and greatly value our partnership on a host of energy issues impacting the electric sector.

Specifically, we would like to bring in our President & CEO, Scott Corwin, to introduce himself to you, and to discuss how we can continue to work together on important electricity issues. Issues we would like to discuss include:

- Affordable and Reliable Power – as not-for-profit electric utilities, public power utilities' primary mission is to provide affordable and reliable power to their communities. We greatly appreciate the focus of the Trump Administration on affordability and reliability and would like to discuss what policies DOE will adopt to help achieve these important goals.

- The Electricity Subsector Coordinating Council (ESCC) – APPA is an active participant on the ESCC and would like touch base with you about your vision for the ESCC going forward.
- Rural and Municipal Utility Advanced Cybersecurity Grant and Technical Assistance Program (RMUC Program) – APPA has received two grants from DOE, one of which supports the association's Cyber Pathways Program, to provide cybersecurity assessments and training for some of the most at risk and resource constrained public power entities, including those owning or supporting defense critical electric infrastructure. The second grant supports APPA's Response Beacon program, which focuses on creating and improving public power utilities' cybersecurity incident response plans, as well as updating existing cybersecurity framework resources.
- Emergency Prep Funding/Safe Haven Exercise – as part of funding under DOE's State, Local, Territories, and Tribal Program, APPA is planning to hold a cybersecurity mutual aid exercise, Safe Haven that will focus on mutual aid response, the voluntary partnership between electric utilities across the country committed to helping restore power whenever and wherever assistance is needed, when it is safe to do so. The event will feature a cybersecurity incident affecting information technology and operating technology systems, which leads to physical impacts and damage to critical electric infrastructure.

In addition to Mr. Corwin, other attendees would include:

- Adrienne Lotto, our Senior Vice President of Grid Security, Technical and Operations Services. Ms. Lotto previously worked at DOE during the President's first term in office.
- Michael Coe, our Vice President for Security, Resilience, and Energy Solutions. Mr. Coe previously worked at DOE.
- Desmarie Waterhouse, APPA's Senior Vice President of Advocacy and Communications & General Counsel.

We are seeking a meeting either this month or in April. If you could please let me know if you have availability to meet, we would greatly appreciate it.

Thank you.

Desmarie

- Rural and Municipal Utility Advanced Cybersecurity Grant and Technical Assistance Program (RMUC Program) – APPA has received two grants from DOE, one of which supports the association's Cyber Pathways Program, to provide cybersecurity assessments and training for some of the most at risk and resource constrained public power entities, including those owning or supporting defense critical electric infrastructure. The second grant supports APPA's Response Beacon program, which focuses on creating and improving public power utilities' cybersecurity incident response plans, as well as updating existing cybersecurity framework resources.
- Emergency Prep Funding/Safe Haven Exercise – as part of funding under DOE's State, Local, Territories, and Tribal Program, APPA is planning to hold a cybersecurity mutual aid exercise, Safe Haven that will focus on mutual aid response, the voluntary partnership between electric utilities across the country committed to helping restore power whenever and wherever assistance is needed, when it is safe to do so. The event will feature a cybersecurity incident affecting information technology and operating technology systems, which leads to physical impacts and damage to critical electric infrastructure.

In addition to Mr. Corwin, other attendees would include:

- Adrienne Lotto, our Senior Vice President of Grid Security, Technical and Operations Services. Ms. Lotto previously worked at DOE during the President's first term in office.
- Michael Coe, our Vice President for Security, Resilience, and Energy Solutions. Mr. Coe previously worked at DOE.
- Desmarie Waterhouse, APPA's Senior Vice President of Advocacy and Communications & General Counsel.

We are seeking a meeting either this month or in April. If you could please let me know if you have availability to meet, we would greatly appreciate it.

Thank you.

Desmarie

Desmarie M. Waterhouse
Senior Vice President of Advocacy and Communications & General Counsel
American Public Power Association
2451 Crystal Dr., Ste. 1000

U.S. DEPARTMENT OF ENERGY

Meeting Information Request Form

Thank you for your interest in meeting with U.S. Secretary of Energy. To ensure that the appropriate individual within the Department of Energy is meeting with you on a given matter and because the Office of the Secretary is committed to maintaining the highest ethical standards, we need the information requested below before we can agree to schedule a meeting¹.

Please respond to the questions below and send your response to the.secretary@hq.doe.gov.

If you have any questions you may contact the Secretary's Scheduling Office at 202-586-5534.

Requesting individual/organization: (Please identify the person(s) (name and affiliation) requesting the meeting, including any background information on the affiliated organization(s).)	American Public Power Association – national trade association representing public power utilities. APPA represents public power before the federal government to protect the interests of the more than 55 million people that public power utilities serve across the United States and its territories. We advise on electricity policy, grid technology and operations, and workforce development in support of safe, modern, and resilient utilities. Meeting request from Scott Corwin, APPA President & CEO
Contact information (Name, Email, Phone):	Desmarie Waterhouse Senior Vice President of Advocacy and Communications & General Counsel (b) (6) dwaterhouse@publicpower.org
Please describe the action sought from the Office of the Secretary:	The purpose of the meeting is to discuss APPA's work with DOE and how we can work together to promote the President's agenda for affordable and reliable electricity.
Meeting date (if date is flexible please indicate the range): Please explain any time sensitivity that impacts the date of the meeting, such as court-ordered or statutory deadline:	Below are dates that we are available to meet. March 27 April 15-18 May 1-2
Proposed meeting location (City, State/Country):	DOE Headquarters in Washington, D.C.
Describe the proposed meeting topic/ agenda, provide available briefing materials, and identify desired outcome(s):	<u>Affordable and Reliable Power</u> – as not-for-profit electric utilities, public power utilities' primary mission is to provide affordable and reliable power to their communities. We greatly appreciate the focus of the Trump Administration on affordability
