BULLETIN ON ASBESTOS PUBLICATIONS

No. 66

December 1962

237. Hann, Gordon E.
Caulking and sealing compounds. Chapter 49, p. 563-573 of Skeist, Irving, Handbook of adhesives. NY, Reinhold, 1962.
- The chapter outlines the various types of sealing compounds and their properties. It then covers the subject of curtain wall sealing in some detail. Asbestos is one of the fillers often used in formulations for this purpose.
238. Oesterheld, Karl Adolf
Process and apparatus for milling crude asbestos
GERMAN 1,126,813 (Apr. 5, 1962)
Asbestos is slurried and put through a series of rubber rollers with a rubbing and bending action to separate the fibers without breaking them.
239. Chem. Abst. 57, 11484d (Oct. 29, 1962)
Landwehr, M. and Bruckman, E.
Mineralogical investigation of the action of dusts, particularly silica dusts on human lung tissue
Staub 22, 219-227 (1962)
240. anon
"Sindanyo" - a versatile material
Gummi Asbest Kunststoffe 15, #10, 956, 958 (Oct. 1962)
An insulating material for electricity and heat made of sheets of asbestos cement formed under high pressure. One table gives the physical properties of the basic type CS.51. Another table lists its modifications for special purposes, for instance CS.62 which has a chlorinated rubber coating for improved acid and alkali resistance, etc.

241. anon
Packing materials resist oil, gasoline -
asbestos-graphite molding
Mater. Design Eng. 56, #4, 202 (Oct. 1962)
News note about a loose mixture of asbestos,
graphite, and TFE resin which can be packed
into place to form a gasket, marketed by
Croton Compound Corp., 1133 Broadway,
New York 10.
242. anon
Asbestos-neoprene sheet
Mater. Design Eng. 56, #4, 204 (Oct. 1962)
New sheet packing material made by
Keasbey & Mattison in three densities
having a compressibility rating of
from 25% for Best-Pak 1100 to 60% for
Best-Pak 1102.
243. Harington, J. S.
Natural occurrence of amino acids in
virgin crocidolite asbestos and banded
ironstone
Science 138, #3539, 521-522 (Oct. 26, 1962)
Analytical work was done on samples
from the North-Western Cape, Republic
of South Africa.
244. anon
Plastic molded inside metal tube
Mater. Design Eng. 56, #6, 153 (Nov. 1962)
News note about a method developed
by Swedlow, Inc., for making a barrel
for the Redeye missile launcher by
pressure bonding an asbestos-phenolic
tube into a metal outer shell.
245. anon
Asbestos gaskets have high positive swell
Mater. Design Eng. 56, #6, 180, 182 (Nov. 1962)
A sheet material of long fiber asbestos
in a sulfur-free binder has been announced
by Raybestos-Manhattan under the trade
name F-53.
