Dr. Robert A. Kehoe
Kettering Laboratory
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

I had a memorandum from you some time back advising me of the receipt of our lead control procedure which I had sent you feeling that it might be of some interest to you. In your letter you mentioned that you expected to give me some comments later on. I would like to let you know that I appreciate any comments that you would like to make and certainly would give serious consideration to any suggestions.

Sincerely yours,

A. F. Lecklider, M. D.

Medical Director

Fisher Body Division
