

REC'D OCT 7 1974

CHEMICALS

INDUSTRIES

INTEROFFICE / LAKE CHARLES

TO Distribution

DATE October 4, 1974

FROM R. P. Lynch

SUBJECT

Because of the more recent data on VDCM, we want to review with our people the known data on VDCM and its carcinogenic effects. Dr. Lovejoy will meet with the personnel from Area B on Thursdays, October 10, 17, 24, and 31, at 7:30 a.m. in the Industrial Relations Conference Room. Graveyards will hold and days will attend the meetings. The operators should feel free to ask Dr. Lovejoy any questions regarding health hazards or checks that they deem important.
