To	M. R. Zavon, M.D.	ADDRESS	Ethyl Tower
FROM	W. C. Strader	ADDRESS	Baton Rouge Plant
SUBJECT	<u>Polychlorinated Biphenyls</u>	DATE	November 14, 1975

Re your letter of October 24 concerning the use of polychlorinated biphenyls, we find that there is no use of these materials within the Baton Rouge Plant manufacturing facility. It may be possible that there are small quantities of these materials in use in the R&D organization. We presume that they will respond separately to the reference memorandum.
