| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |  |                                                                                                                |                       |                                                    |                                                     |                                   |

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |  |                                               |                |                                                    |                                                     |  |

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |  |                                                                                                                |                          |                                                    |                                                     |                    |

Special Handling Instructions and Additional Information                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |  |                                               |                          |                                                    |                                                     |  |
| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |  |                                               |                          |                                                    |                                                     |  |

 9A2 PROFILE # 75425 ALTRASORB  
 Attn: Marie-Sue Ronald Brown  
 9A3 PROFILE # 77124 ALUMINUM PAINT

15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are properly labeled/placarded, and are in all respects in proper condition for transport according to the requirements of the Hazardous Waste Manifest. I certify that the waste minimization statement identified in 40 CFR 262.2(a) (if I am a large quantity generator) is true and correct.

Generator's/Offeree's Printed/Typed Name: *Marie-Sue Ronald Brown*      Signature: *[Signature]*      Date: *04/23/24*

16. International Shipments ☐ Import to U.S.      Transporter signature (for exports only): *[Signature]*

17. Transporter Acknowledgment of Receipt of Materials  
 Transporter 1 Printed/Typed Name: *1437 Arthur*      Signature: *[Signature]*      Date: *04/23/24*  
 Transporter 2 Printed/Typed Name: *Shane Blanchard*      Signature: *[Signature]*      Date: *05/17/24*

18. Discrepancy  
 18a. Discrepancy Indication Space ☐ Quantity ☐ Type ☐ Residue ☐ Partial Rejection ☐ Full Rejection  
 Manifest Reference Number: \_\_\_\_\_  
 18b. Alternate Facility (or Generator)  
 Facility's Phone: \_\_\_\_\_  
 18c. Signature of Alternate Facility (or Generator): \_\_\_\_\_      Date: \_\_\_\_\_

19. Hazardous Waste Report Management Method Codes (i.e., codes for hazardous waste treatment, disposal, and recycling systems)  
 1. *H001*      2. \_\_\_\_\_      3. \_\_\_\_\_

20. Designated Facility Owner or Operator: Certification of receipt of hazardous materials covered by the manifest except as noted in item 18a  
 Printed/Typed Name: *Shannon Battles*      Signature: *Shannon Battles*      Date: *05/09/24*

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |                                                                                                                                                                                                                                                                                                                                |                                                                                                                      |                                                                                                                                                |                                                    |                                                     |                   |                  |

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |                                                                                                                                                                                                                       |                                                                                                                |                          |                                                    |                                                     |                   |

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |                                                                                                                                                                                                                       |                                                                                                                |  |                                                                                                                |                                                    |  |                                                     |                   |                 |

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |                                                                                                                                                                                                                                          |                                                                                                                    |                |                |                                                              |                |                                                     |                  |                             |

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |                                                                                                                                                                                                                                                                                                                      |                                                                                                                |                            |                                                   |                                                     |                   |

## Appendix 8

### Mike's Filter Procedure for Determining Halogen Content of Used Oil

### **Determination of Halogen Content in Used Oil**

1. A used oil sample is initially collected from the generator prior to acceptance
2. The sample is delivered to American Advanced Technologies to check for halogens in used oil
3. American Advanced Technologies uses a Dexsil Clor-D-Tect test kit to determine if the amount of halogen content in the used oil stream is less than 1,000 ppm for acceptance
4. Once sample is accepted for recycling, then Mike's Filter schedules the collection of used oil from the generator
5. When delivering used oil to American Advanced Technologies, another Dexsil Clor-D-Tect test is run again to verify halogen content is below 1,000 ppm so used oil can be accepted for recycling
6. If used oil test is below 1,000 ppm and accepted for recycling, then results showing used oil is less than 1,000 ppm is documented on the collection manifest

Appendix 9  
Mike's Filter Response to AOCs

# Mike's Filter & Supply, Inc.

## Initial Areas of Concern

### 1. Waste Determination for waste being stored on spill pallet

The following has been determined through research with my Dispatchers and Warehouse Personnel.

#### Items of pallet

2 cardboard boxes with sample bottles

- The samples were collected from generators with fuel/oil related new products and delivered to American Advanced Technologies to test for acceptance and recycling. These product samples were rejected with the remaining product left in bottle to be returned to the generator by either our sales people or drivers when in route to customer area. The 10 sample bottles of product in the cardboard boxes were returned to customer on 6/6/2024 on ticket # R034394.

2 Empty Paint Thinner Cans

- The paint thinner cans labels have been removed and empty metal cans have been sent to scrap yard for recycling.

1 Paint Thinner Can

- Paint thinner can is new product. The can has been relocated into an area with other products still being used in our daily operations.

2 5-gallon pails (labels showing generator "Inspectorate America Corp (St. Rose)

- The pail label shows manifest # 018007433 FLE. I researched the manifest for this generator and it shows that the manifest was for a pick-up of 2 55-gallon drums of lab waste. The 2 pails with the labels on them have been sampled and sent to a lab for analysis. The analysis should determine if the stream is hazardous as per the generator name on the label or if the stream is what my employees say is a soap product that was put into the container by mistake to be used by our company. When the analysis comes back determining non-hazardous or hazardous Mike's Filter will create a profile and dispose of the waste properly.

1 10-gallon empty poly bucket

- The empty 10-gallon bucket has a Mike's Filter & Supply hazardous waste sticker on the container showing Waste Aerosols. Upon a LADEQ unofficial phone call concerning a customer of ours, they were wanting the customer to have a container readily available for aerosols just incase they generated waste. After our phone conversation, I took the initiative to put one in place here at Mike's Filter. Waste stream had been profiled and a label placed on the container.

1 5-gallon pail (X-Chem written with marker)

- Warehouse employee says the container has the new product soap that we use in it. The soap is called AQPW an non-hazardous aqueous part washer solution. Product in containers have been used and containers disposed of.

2 5-gallon pail (No Label)

- Warehouse employee says the container has the new product soap that we use in it. The soap is called AQPW an non-hazardous aqueous part washer solution. Product in containers have been used and containers disposed of.

**2. Issues with coating of secondary containment used for storing used oil**

- Containment area wall and floor will be pressure washed clean before coating concerned area

**3. Hazardous waste container held onsite for longer than 10 days**

- I have reevaluated our operations storing and shipping waste to our two vendors (Clean Earth of Alabama and Giant Resource Recovery) for hazardous waste based on their current acceptance of waste material. Hazardous waste facilities only receive waste when scheduled. We currently have an offload slot scheduled every week on Thursday for Clean Earth of Alabama and every other week on Thursday for Giant Resource Recovery. Giant Resource Recovery can only accommodate us every two weeks due to customer slot availability. Scheduling our customer pickups being shipped to Giant Resource Recovery has been modified to pick-up within our 10-day transfer facility status.
- Situations occur during scheduling pickups from our customers when the customer plans to have a certain number of drums being picked up, but when we dispatch our truck to pick-up drums, they have more drums to pick-up. This has caused several manifest pickups from generators delayed in being shipped to the hazardous waste facility due to our truck being overloaded on weight or full with drum quantities.
- Another addition to our procedures is to write the date the shipment is unloading into our transfer facility storage area if it is not on the date of pick-up. The unloading date will be written in the area on our hazardous waste manifest #14 (Special Handling Instructions and Additional Information). Several of our manifest that we exceeded our 10-day limit was due to us picking up on a Friday, but unloading on a Monday.
- I have had meetings with all personnel involved with picking up, unloading, or dispatching any type of waste material being held in our 10-day transfer facility area. The evaluation of our process for managing our 10-day transfer facility status should be taken care of when the plans put in place are managed correctly in addition to getting additional offload slots at the hazardous waste facilities when needed if available.

**4. Universal waste batteries not labeled**

- Pallet labeled correctly based on type of waste and manifest

| 15. GENERATOR'S/OFFEROR'S CERTIFICATION: I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked and labeled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations. If export shipment and I am the Primary Exporter, I certify that the contents of this consignment conform to the terms of the attached EPA Acknowledgment of Consent. I certify that the waste minimization statement identified in 40 CFR 262.27(a) (if I am a large quantity generator) or (b) (if I am a small quantity generator) is true. |                                                                                                                                                                                                                                                                                                                                       |                                                                                                                |                            |                                                    |                                                     |                   |
