TO: Members of Faculty

FROM: Dr. E. C. Foulkes, Assoc. Director

Preparations will soon begin for the annual report for the Center Research activities. Would you please let me have by not later than February 13th a 1-2 page report of the progress of research in your laboratory. I am specifically interested in the work of the last 12 months but would appreciate also a short paragraph about where you plan to go from here. Also, please list any publications including manuscripts in preparation or submitted to a journal.

Thanks for your help.
