Matt:

There is no urgency regarding my questions regarding air toxics regulations. While I realize much of the effort is directed towards policy options, emissions, modeling, and the like, I am interested in the health side of the equation. Perhaps we can schedule some time during the month of March. I am available tomorrow or Friday, next Friday (10 March), and most times the following week. Probably only need about 30 minutes.

Again, thanks and best wishes

Stuart

Thanks Stuart! I'm sure we'll be crossing paths again and I'm glad to help out with the air tox regs anytime.

Matt

Matt:

Thanks for all of efforts on behalf of the Shanghai Health Study. It is an important project for all of the sponsors and you have provided needed support and clarity, particularly on matters concerning communications (internal and external).

Best wishes for success in your new assignment.

(Note I may want to talk to you sometime soon about air toxics regulations in the US)

Be well

Stuart
