INSULATING MATERIALS

Following are the answers to the questions you posed today regarding insulation at the Huron Plant:

1. We have no full-time insulators.
2. All of our 29 employees are eligible to do insulation at some time.
3. Fiber glass and asbestos insulation are the only two used at the Huron Plant.
4. We do no spray insulation.
5. No special precautions are taken while doing insulation other than the use of safety glasses and normal plant safety precautions along with standard hygiene.

Yours very truly,

A. V. Novak
