

Let your profits GLOW!!

A SYSTEM SO SIMPLE, IT'S REVOLUTIONARY

Meet the first fluorescent leak detector that will brighten your profits and build customer satisfaction.

No matter what kind of leak you're trying to find and repair, **Vio-Lite™** will spot them all—gasoline or diesel engine leaks, transmission or hydraulic system leaks, even leaks in refrigerant and cooling systems.

Then, all that's needed is an ultraviolet light source. **Vio-Lite™** fluorescent dye glows to pinpoint the leak and take out all the guesswork.

Custom-blended **Vio-Lite™** tracer dye additives have been engineered, tested, and are totally compatible with any automotive, industrial, or cooling system. Simply add the correct **Vio-Lite™** product for gas or diesel engine oil, fuel, transmission fluid, or coolant.

Help your customers discover the Vio-Lite advantage:

- Safe
- Efficient
- Inexpensive
- Easy-to-use
- Convenient sizes
- Enhances preventive maintenance programs

Isn't it time you stocked a leak detection system that helps your customers do the job right the first time? **Vio-Lite™ is a one-of-a-kind innovation. Try it for glowing profit results!**
