Special Delivery

Mr. C. V. Porter,
Taylor, Porter, Brooks and Fuller,
Louisiana National Bank Building,
Baton Rouge 2, Louisiana.

Dear Mr. Porter:

In accordance with your request I have wired the analytical results obtained on the blood and urine of [REDACTED] to Dr. Rankin and am confirming these results by sending you the attached report.

As you will note the lead concentrations in both the blood and urine are within normal limits, thereby indicating that Mr. Taylor has eliminated any abnormal quantities of lead that may have been absorbed at an earlier date.

I call your attention to the fact that the blood samples were analyzed by two different methods. This is in accordance with our usual technique.

Cordially yours,

Robert A. Kehoe, M. D.
