Dear Allan:

We are in receipt of your letters dated March 22 and 23. Having been out of the office they have just come to my attention today. We also received the two surface area apparatus today. They have not at this writing been unpacked but I am sure these units will be in good condition.

We sincerely appreciate your additional efforts to provide us with information regarding this matter. Please accept our thanks for the usual fine cooperation.

When you see George White please give him my regards and sincere best wishes..

Yours very truly,

Lee P. Hauser
