Dear Dr. Bennett:

I regret the delay in replying to your letters of 7 and 26 August, but with vacation and holidays, I am a little behind in my correspondence.

As you have probably heard from Roy Gottesman, I have no problem with your position toward IARC and further work in VCM. I understand from Roy that you will not be visiting Akron on this trip.

As best I can determine your information on P. P. Gilmer is accurate if you use the 1986 dates for diagnosis and years of exposure.

I have again asked the people at our Niagara Plant for information on the possible case there and will forward any additional information I can obtain.

Sincerely,

Harold W. Dietz, M.D.
