Full Name Address Dixon Chubbuck & Assoc. Inc. 11815 E. slauson Ave. Santa Fe Springs, Ca 90670 Mfrs. of	Interviewed Don Chubbuck

This company produces a white, dry mix, cement based, inexpensive reflective roof coating. Its trade name is "Snow Coat". They are a customer of Western Chemical, and use our Sg 130, Westerns 7-C-16. They purchase about 60 ton/year. They are concerned about the recent California legislation of Sen. Marks, Senate Bill No. 2419, concerned about the spraying of asbestos contained products. My purpose here was to advise him of our activity, and that of the AIA, whereby we are to furnish to Sen. Marks, data of various dust counts showing the low exposure in relation to the existing TLV. As we understand, Sen. Marks will then write exceptions to the bill such as now exist for cold process cutback roof coatings. This bill becomes law July 1, 1975, limiting the asbestos content to ¼ of 1%. On July 1, 1976 prohibits the spraying of any asbestos contained product.

HBR Harry, we need help here. Customers up and down the coast are looking to us or any supplier for assistance. What is the status of the dust count data now going through our N.Y. legal dept.????? When can we expect to approach Sen. Marks?????

If under base spray > 1/2 % asbestos
