

March 26, 1973

BULLETIN NO.: A-73-01

SUBJECT: Brake Lining Rivets

Gentlemen:

As an added convenience we are putting in a complete line of Rivets. Stocks will soon be in our Warehouses to supply your requirements.

We have added a 25 prefix to the standard rivet part number to designate this new product line.

Example: 25-8-7 is a standard 8-7
Brake Lining rivet, 3/16"
Body x 1/2" Head x 7/16" Long.

We would appreciate you advising your local Abex Warehouse of any unusual quantities of rivets you may require so we can adjust our inventory accordingly.
