STANDARDS SECTION - SAFETY & FIRE PROTECTION

The following new standard is forwarded for your review. Please return your comments or approval on the attached form by December 9, 1971.

S4T - MEASUREMENT AND CONTROL OF ASBESTOS DUST EXPOSURE

This new standard sets forth general information on methods of controlling asbestos dust exposures, and describes an acceptable method of sampling asbestos dust concentrations in work areas.

STANDARDS SECTION

D. M. Isiminger
Standards Engineer

DMI:kjk
Attachments

This standard should be routed for review by persons qualified in air pollution work.
