Dear Bob:

I assume that you have seen the advertising of the M-S-A
Lead-In-Air Detector Kit being distributed with a circular letter
dated November 28, 1958.

I would greatly appreciate your giving me, if you are in a
position to do so, and on a strictly confidential basis, an apprai-
sal of the value of this device.

If you are not yourself familiar with it, perhaps you know of
someone who is.

Sincerely yours,
