8. J5M - Noncontinuous Stack Sampling for NO_x
Review of revision preparation was deferred.
9. S2T - Threshold Limit Values
Proposed revision draft has been forwarded to typing. J. R. Martin is preparing with C. F. Morgan. Haskell Laboratory an explanation paragraph for Du Pont guidance on use of short-term exposure limits (STELs) as listed in the 1977 edition of the ACGIH TLV listing of adopted values. To minimize delays, J. R. Martin will prepare the proposed explanation for C. F. Morgan's approval.
10. S3T - Toxic Gas Detector Tubes
Standard has received author's and subcommittee review and will be included in the March issue.
11. Preliminary Consideration of Standards to be Reviewed at the March Meeting
Written comments to the author noted are urged one month prior to the meeting date covering any recommended general or specific revisions in the following standards scheduled for review at the March meeting.
 - J2K - Guidelines for Company Air Emissions Data - R. W. Stowe
 - J7M - Noncontinuous Stack Sampling for Particulates - T. A. Kittelman
 - J3P - Methods of Estimating Emissions to Air - T. A. KittelmanAttached is memo T. A. Kittelman to C. E. Marsh dated 12/28/77 which summarizes the extent of revisions proposed. Comments on this proposal are requested.
12. Attachments for Information
 - Material Safety Data Sheets
Attached for your information is letter J. L. Parsons to Product Environmental Committee, etc. 12/14/77 transmitting Material Safety Data Sheet Forms approved by the ad hoc committee which J. L. Parsons chaired. Please note the form is almost an exact duplicate of the four-page form included as an example in S11T (Figure 1).
 - Gerstner, H.E., Huff, J.E., and Ulrikson, G.U., "Information Analysis Center Concept, Products, Services, and Pricing Policies", American Laboratory, 41-49 (July 1977). (Toxicology Information Services are discussed. Available to industrial organizations for a fee.)

ADJOURNMENT

The meeting adjourned at 4:40 p.m.

NEXT MEETING
