Shell Oil Company  
P. O. Box 262  
Wood River, Illinois 62095

ATTENTION: Mr. P. J. Hess  
Fire and Safety Department

Gentlemen:

RE: Toxic Ingredients of Eagle-Picher Super "66" and  
One-Cote Cements

The above Eagle-Picher products do not contain any toxic ingredients. Therefore, no antidotes are needed.

However, One-Cote Cement contains Portland cement. Therefore, the applicator may use rubber gloves to protect the hand from any ill effect due to the alkalinity of the Portland cement.

Very truly yours,  
EAGLE-PICHER INDUSTRIES, INC.  
Fibers & Minerals Division

P. K. Maitra  
Director of Research
