Thanks. I don't believe so. This was the last draft I saw.

Hey! Let me check. Honestly, without office heads we are getting bogged down. I also know that office well and how they operate and would certainly hate to get in the way of his agenda. Remind me- did we provide them with TA on the bill?

Thanks for the conversation. Dicamba discussion is really picking up! Also, after chatting I had a good visit with Judd in the Moran office. They are getting some pressure from the Kansas Livestock Association to introduce the Flint Hills exceptional fire event bill again. I cautioned about introducing a marker only bill as I want to fix the issue (ether via the administration or a legislative vehicle that is actually going to move) and that got us to talking. Has your team been able to do any more research on the exceptional event for prescribed fires of wildlands issue we came to see the administrator about in May?
