G5EC G. R. Sido —
B2ND C. B. Sigler
B2ND C. B. Williams

All Bills of Lading covering shipment of Polychlorinated Biphenyls (PCB's) should contain the following notation:

> This product contains POLYCHLORINATED BIPHENYLS (PCB's) which some studies have shown may be persistent, an environmental contaminant and possibly injurious to certain forms of bird, aquatic and animal life. Prevent any entry into the environment through spills, leakage, disposal, vaporization, re-use of containers or otherwise. Spills, leakages and waste product must be collected.
>
> During shipment avoid spills and leakage into inland waterways and the sea.
>
> Keep away from food, animal feedstuffs and pharmaceuticals.

Special shipping instructions on orders entered with the plant will contain a reminder stating "apply PCB-PCT warning on lading".

By copy of this memo we are requesting Sigler/Menary to instruct any warehouses involved, shipping these products, to apply the same notation.

Also, Bill Schaffer may want to consider amending the Monsanto shipping classification for plant guidance.

William L. Friehs
