SAFETY EXCELLENCE TASK FORCE

The people who will serve on the Safety Excellence Task Force are listed on the attachment. We appreciate everyone's involvement in the nominating process. All the nominees were well qualified and would have done an excellent job on the Task Force. Our selections from the nominees were based on the need to get a reasonably balanced division, ethnic, age, and experience representation. We are counting on input from all the nominees and volunteers and hope they will be willing to serve in the future as opportunities arise.

We seem to have mis-communicated on how the Task Force members would be selected. Some people got the message that all the nominees and volunteers would be interviewed before the final Task Force selections were made. What we were trying to say was that all nominees and volunteers not selected for the Task Force would be interviewed at a later date by a Task Force member as a part of our plant interviewing process. We apologize for the confusion.

The Task Force will begin work Monday, October 22. We appreciate the help and support we've gotten so far and we are looking for everyone's continued interest and involvement in this effort as we move forward.
