

RE: European Industry Summit - touch base

@cefic.be>

Cc

Good news! Several more sectors (metals, aluminium, paper) joining with CEO next to already Steel, Cement, Ceramics, Pharma etc.

Also Central European companies coming – Czech, Slovak, Romanian, Hungarian, Polish.

Also trade unions (IndustryAll) CEO Vasiliadis and SecGen Jude Kirton Darling join.

Will be the largest CEO gathering I have seen besides Davos or a COP 😊

Will send and share an updated list Sunday night latest.

Regards
Marco

External email - Think before you click on links and attachments.

Great news Marco. Thank you.

Will your national federations still contact offices of PM's across Europe?

With such a list of CEOs we could still take soundings with the European Council approaching.

Yes – All National Associations will reach out.

Was in Paris today, who were whatsapping with the Elysees as we spoke / they said if not Macron than Lemaire.

if you could help / have a contact list at PM offices we will send them straight to these people as well, otherwise all go through their own contacts or ministries of economy – with the disadvantage they are in LaHulpe.

We will also check the programme of informal Compet – could we steal a few there 😊?

We will redouble the efforts and see where we can get. It's becoming a snowball.

Very cool 😊

Marco
