Dear Dr. Hughes:

On June 3, 1996, and June 13, 1996, Monsanto informed Mr. John A. Poole, Jr., Chief, Land Division, Alabama Department of Environmental Management, by letter that the Property Purchase Program was being extended to owners of residential properties in areas designated Area C and Area E. Attached to those letters were lists of owners to whom the Property Purchase Program was being offered.

The specific areas included in these extensions of the Property Purchase Program are shown by the dark lines which have been superimposed on the two attached maps, which have been submitted to the Alabama Department of Environmental Management reporting sampling results.

Yours very truly,

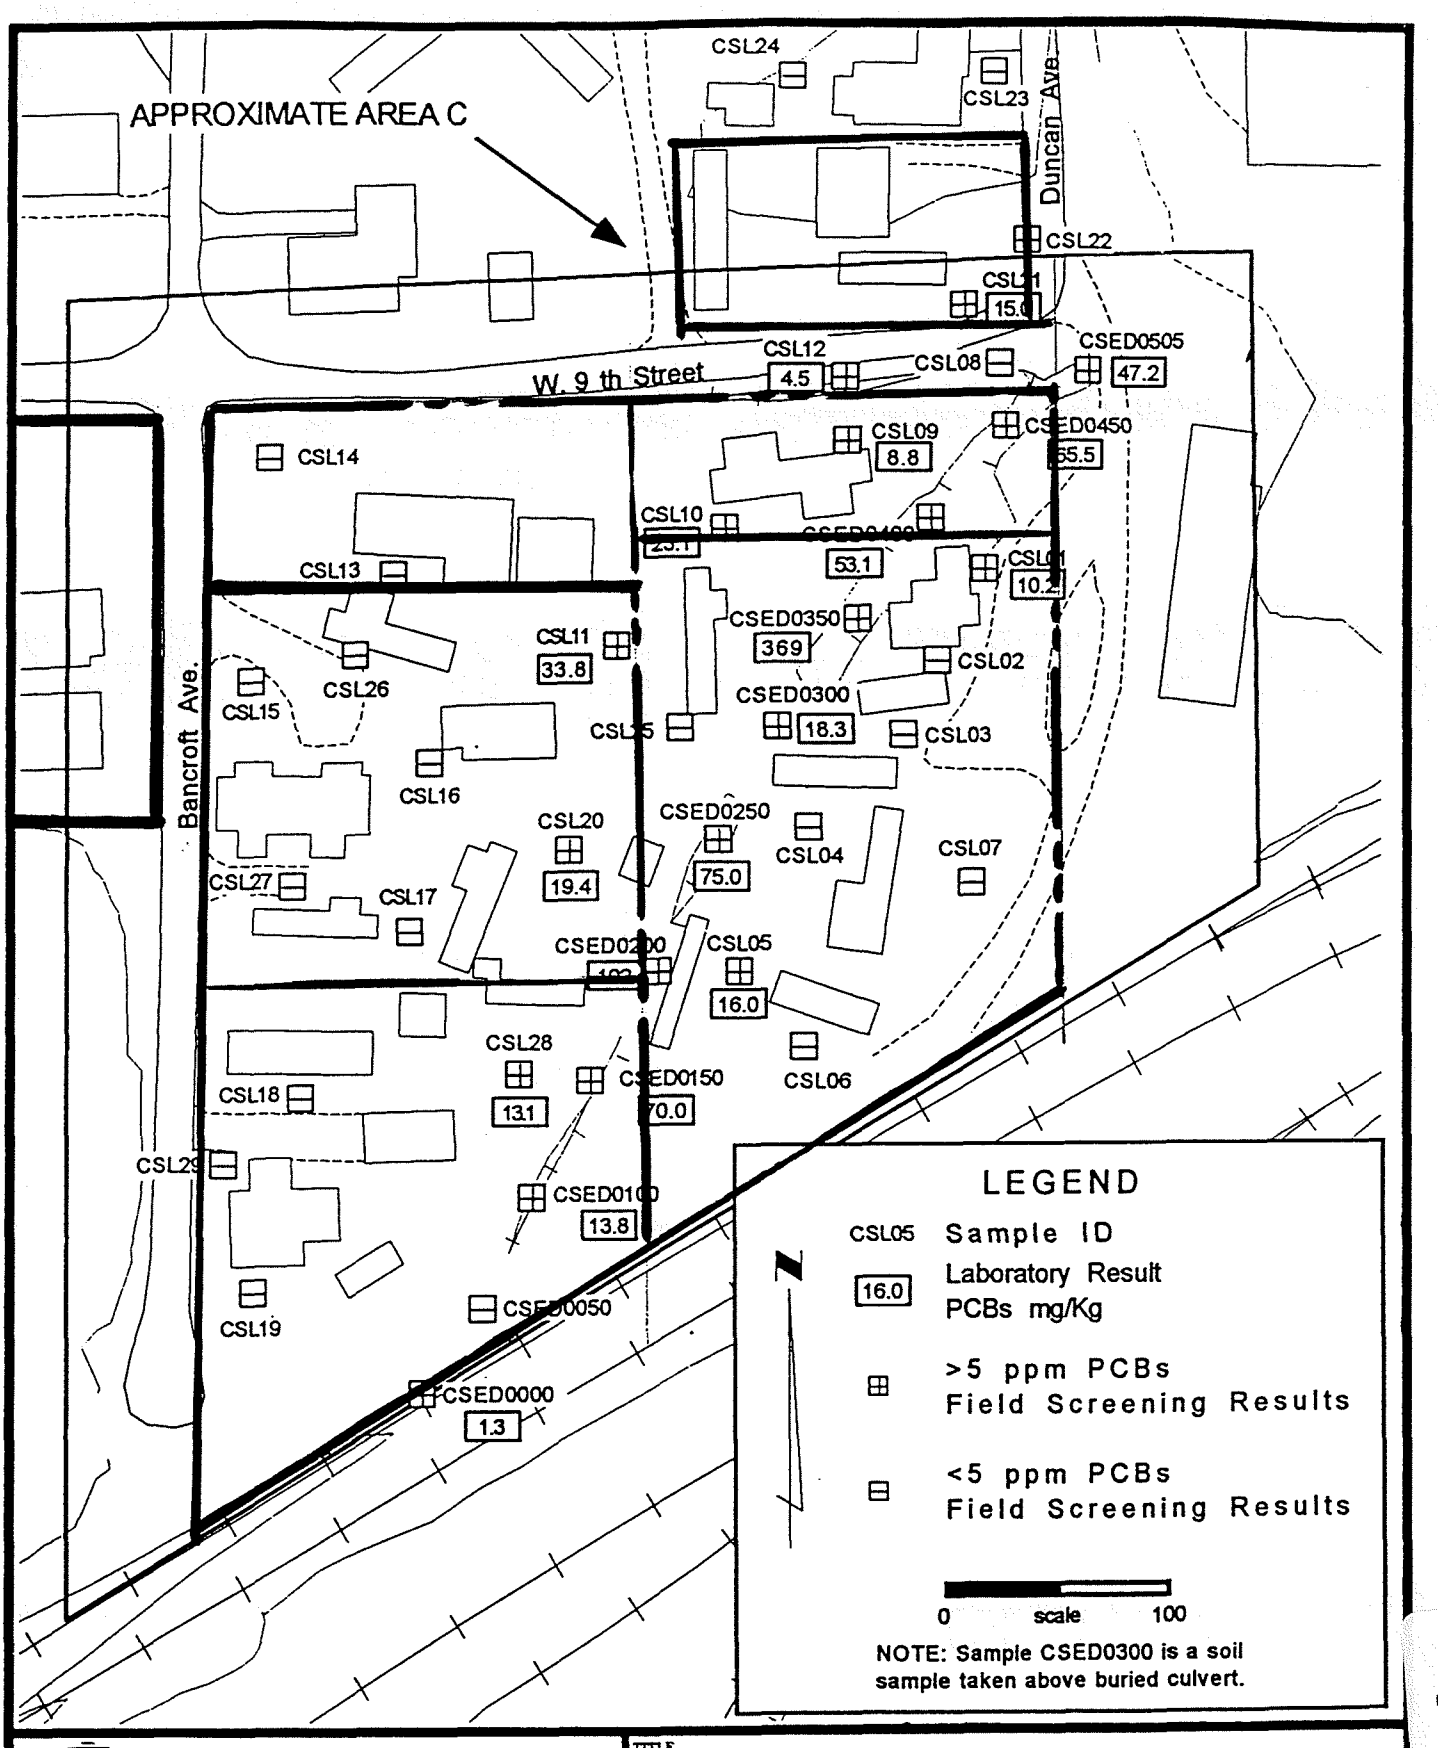

Robert G. Kaley, II
