

1 A Pretty good size school out there.

2 Q And was this new construction that was going
3 on?

4 A Yes, it was, just being built.

5 Q And were there pipecoverers present?

6 A They had pipecoverers, carpenters,
7 electricians, plumbers, pipefitters. Had everything
8 out there on that job.

9 Q Was the jobsite similar as what you
10 described for Loch Raven Apartments, Hamilton and
11 Northern, was it a similar-type situation?

12 A Yes.

13 Q Did you have occasion and Mr. Vandergucht
14 have occasion to be in the area when pipecoverers
15 would be sawing or cutting the pipecovering?

16 A You couldn't help but be in there because if
17 they were working in one room, you would go through
18 that room to go to another room to work or you might
19 have to go to work on some ceilings and they would be
20 working all around in the area. They had right good
21 size areas out there to work in.
