

Preserve your home as our forefathers safely preserved the stately beauty of their Colonial mansions — by painting with lead. Your painter will tell you it pays to paint with lead paint, made with Dutch Boy white-lead.

CAN you answer the many questions that rise up when you decide to renew the paint covering which protects and beautifies your farm house? Our booklets, "Handbook on Painting" and "Decorating the Home" (printed in colors) will help you answer a great many of them. These booklets give valuable information about the use and application of paint and the selection of distinctive color treatments for the interior and exterior. Send to our nearest branch for these helps and a decorator's data

form for use if you desire the help of our Department of Decoration on any special decorative problem about the farm.
