

9/25/72

To Mr. T. P. Mesick:

Attached is a copy of a note
which I received from Mr. F.
Floersheimer regarding Evans
Lead. As far as I know, we have
no intention of dissolving Evans
Lead, but I thought you should
know about this.

To: Jack Rafferty:

While at P&C last week Fred Leake advised that Evans Lead (Company?) is being phased out. He asked if any steps are being taken to protect this name. He is concerned as it is his understanding that other parties would like to appropriate same. I advised him that I'd pass this on to you.

Fred.
