Mr. A. E. Mittnacht
Ethyl Gasoline Corporation
Chrysler Building
New York City
New York

Dear Mr. Mittnacht:

I am forwarding to you herewith a letter from Dr. Elizabeth Bricker which contains certain questions which I would like to have you answer. I have replied to Dr. Bricker only in relation to the question of hazard, and it seems to me best that you or one of your associates should reply to her questions as to the specifications, permissible lead concentrations, color, labeling on the pump and the use of secondary gasoline containers. You need have no hesitation in speaking with complete frankness to Dr. Bricker since her questions arise only from her natural interest in the facts.

Very truly yours,

RA^A:IS
