Bondex International
3616 Scarlet Oak Boulevard
Saint Louis, Missouri 63122

ATTN: Ms. Jeanette Garner

Dear Jeanette:

I received your letter of 28 March requesting that I send you, in writing, information on asbestos and aqua ammonia. As asbestos is a solid material and aqua ammonia is a liquid material, and since they would naturally never come into contact with each other, I see no possibility of there being any asbestos content in the aqua ammonia we sell you.

If this raises any questions, please call me.

Very truly yours,

THOMPSON-HAYWARD CHEMICAL CO.

Roger Goette
