PLANT MANAGER'S SAFETY BOARD
MINUTES OF MEETING
November 20, 1984

I. PLANT STATISTICS

Texas City Plant Safety Performance Summary - October

	1983		1984		1984
	OCT	YTD	OCT	YTD	TARGETS
(A) INJURIES WITHOUT LOST WORKDAYS (medical treatment only)	1	9	0	2	7
(B) LOST WORKDAYS CASES	0	0	0	0	1
RESTRICTED ACTIVITY	0	0	0	0	--
DAYS AWAY FROM WORK CASES	0	0	0	0	--
(C) FATALITIES	0	0	0	0	--
TOTAL RECORDABLE CASES	<u>1</u>	<u>9</u>	<u>0</u>	<u>2</u>	<u>8</u>

INJURY RATES PER 200,000 MANHOURS

	1983		1984		1984	1984	
	OCT	YTD	OCT	YTD	TARGETS	MFIC	SEPT
TOTAL INJURY-TIR	13.06	12.31	11.35	9.39	---	---	---
TOTAL RECORDABLE-TRR	0.87	0.74	0.00	0.18	0.67	0.95	0.87
TOTAL LOST WORKDAY-TLWR	0.00	0.00	0.00	0.00	0.08	---	0.25
DAYS-AWAY-FROM-WORK-DAWR	0.00	0.00	0.00	0.00	---	---	0.21

II. POLICY CHANGES

- A. It was recommended and approved that vehicles carrying personnel to the main locker building in order to use the shower facilities will not be stopped by plant guards if the headlights and flashers are on. A SHAC alert will be issued on this.

III. ACTION ITEMS

A. Ex-Battery Limit Pipelines

SAC is still working on resolving recommendations made by the SHAC committee concerning responsibility for ownership of ex-battery limit pipelines.

B. Safety Logbooks

Some concern was expressed by HSC about proper use of safety log books. SHAC will examine safety log books during the first quarterly inspection in 1985.

C. Permits

1. Fire and Entry Permit

SAC will make an overall review with recommendations. Items under consideration will be signatures required - how they affect the natural flow of work performed - and issuing of blanket permits for work on systems; i.e. steam lines in AN-5 during shutdown.

2. General Permit

LP&S will conduct a survey and determine problems incurred with this permit. The results will be reviewed with Manufacturing and Personnel to determine whether or not this permit is necessary. Will report in December PMSB.

D. Critique of Emergency Drill

Videotapes taken of the emergency drill will be shown at the December PMSB if they can be reduced to approximately 15-20 minutes duration.

E. Injury Reporting Emphasis

LP&S will survey General Superintendents to determine feedback to MFI concerning whether or not emphasis should be on TRR or TLWR.

F. Off-the-Job Safety Program

The proposed 1985 off-the-job safety program for the plant will be sent to General Superintendents for review prior to sending to Will Varnado by mid-December.

G. Safety Showers at West Gate

The spill in Department 50 on 11/16/84 emphasized the fact that there is no emergency shower at the west gate. The need exists as there is a tendency for contract personnel to head for the gate during any emergency. An emergency shower and eyebath will be installed at the west gate. Plant guards will then take over the responsibility for checking and maintaining this shower/eyebath facility.

H. Freeze Protection Bulletin P-0104

Comments to Thurman Payne at SS-18 concerning this Procedure Bulletin can be delayed until December 7, in order to allow review by unit/craft safety teams.

I. January/February Syndrome

In order to avoid the high injury frequency that has occurred in the January and February time-frame in past years, the following plans were proposed and approved:

1. Calendars from the National Safety Council -- will send out in December with enclosed letter stressing our goal - to be as safe at home as at work.
2. Quarterly Housekeeping Inspection - will be conducted in January - publicize.
3. Pertinent safety topics in the Monsanto newsletter.
4. Advanced publicity on the Safety Fair. This Fair will have special emphasis on health care and off-the-job safety.
5. Positive publicity on an excellent safety year in 1984. Announcement of awards for all individuals. Make the award available in February.
