Dear Dr. Kwon:

One of the officials of the attached symposium (4/25-4/27) in Denver told me he hopes your organization will have a representative specialist sit in on the meetings.

Apparently an invitation was sent to your field offices nearest Denver but may not have gone to the right division so I agreed to call the thing to your attention in case you have a specific man you wish to cover the talks.

Very truly yours,

W. H. Ashton
