

1 But it is your job, ladies and gentlemen, to
2 come up with a figure, a value on what life and pain
3 and suffering is, and it is your job as the jury.

4 That is your job in this case, and I don't
5 want to belabor this, but go through it with you
6 quickly.

7 Mr. Grewe was 55 years old when he died. He
8 was 55 years old. He had 21.9 years of life, expected
9 life remaining.

10 In 1992 you heard that he started to
11 experience left-sided chest pain and began
12 experiencing shortness of breath.

13 He was helping a friend over the weekend and
14 started to have some problems. That pain continued to
15 increase.

16 It got so bad when he took a deep breath or
17 lying on his left side -- and you remember the chest
18 X-ray taken at that time showed two-thirds of his left
19 chest obscured.

20 He went into North Arundel Hospital where
21 they did the thoracentesis, where they took the needle
