JAMES L. SUGG, M.D.
MEDICAL SECTION
FLORENCE PLANT, FLA.

Dear Jim,

Thanks for your note in response to our questionnaire. I was delighted that you have not had any trouble or suspected incidences with asbestos.

I think it would be advisable to eliminate use of asbestos blankets whenever possible, and this might become required by law in years to come. By all means, I would urge the use of masks for the cutting and the handling of all asbestos material. I would certainly regard the elimination of all asbestos material whenever possible as important.

Our Engineering Department told me that they are already engaged in a study of insulating materials, and are urging substitutes whenever possible. Perhaps your Engineering Department is already aware of this.

It was nice hearing from you, Jim, and my cordial good wishes to you.

Sincerely,

Original Signed By
C. A. D'ALONZO, M.D.

C. A. D'Alonzo, M.D.
Medical Director
