Interstate Shipment of Leaded Paint

F. M. KENT
APR 5 1973

Vince:

Would you be kind enough to enlighten us as to just what restrictions are with regard to interstate shipments of materials containing lead in excess of the Federal limitations.

We are somewhat confused about the various products we now find we cannot ship interstate. I thought that those products only pertained to those items that would eventually wind up in the consumer's hands.

If at all possible, Vince, we would appreciate a copy of the regulation that describes this law, or could you direct me to a place where I could get one.

Many thanks for your help.
