Onderwerp: RE: Request for a meeting - PFAS REACH restriction

Dear

We have received your request for a meeting regarding the REACH restriction proposal on PFAS. As competent authority in Belgium for REACH we can reply to your request.

Unfortunately we will not be able to organize a stakeholder meeting on the universal PFAS restriction dossier in the near future.

However you are kindly invited to send us written information, which we can then share with the Belgian Committee for REACH (BCR), who will be coordinating the Belgium position on this restriction dossier once the proposal will be tabled at the REACH Committee. For more information on the BCR you can consult the following webpage: https://www.reachinbelgium.be/index.php?page=comite-reach&hl=en_US

Kind regards,

Health

Subject: Request for a meeting - PFAS REACH restriction

Dear ,
I hope my email finds you well.

I am reaching out on behalf of the European Tyre and Rubber Manufacturers' Association ([ETRMA](http://etrma.org)) to kindly request a meeting with you at your convenience to discuss the PFAS REACH restriction.

ETRMA is a downstream user of fluoropolymers and fluoroelastomers and has been actively engaging in the PFAS restriction process [by submitting comments](#) to ECHA's public consultation process. Fluoropolymers and fluoroelastomers have unmatched chemical and temperature resistance properties and their stability in combination with these properties, translates to unique and lasting performance in our applications, products and processes. ETRMA would appreciate a meeting with you to provide you with evidence-based findings on the social and economic impacts on the tyres and rubber sector that are expected to occur should this group of substances be restricted under REACH.

Thank you for your consideration.
Best regards,

Senior Manager, Materials Stewardship
European Tyre & Rubber Manufacturers' Association – ETRMA
