ATTN: Mr. Lundquist

Dear Sir:

Under separate cover, we are mailing you 2 samples of Pioneer 4408 talc supplied by your company. These samples are numbered 5 and 7. Sample #5 is the material we had difficulty in getting to stay in solution in water. #7 readily dissolves in the water and works very well in our operation. We are not sure if this material came in in the same shipment or not. However, the bags that have the bad material are only marked 4408. Bags that have material that are efficient were marked 1-408-6-19-73. Please have your people look into this problem and advise us of your findings.

Sincerely,

99.9 - 200 mesh
98-99 - 200 mesh normal
